

CURRICULUM VITAE

Nombre y Apellido: Ranwel CAPUTTO
L.E. 2.367.398
C.Federal: 1.678.768

Lugar y fecha de nacimiento: Buenos Aires, Republica Argentina
1 de enero de 1914

Posicion actual, Director del Centro de Investigación en Química Biologica de Córdoba. Profesor Emerito de la Facultad de Ciencias Químicas de la UNC-Investigador Superior del CONICET.

Titulos: 1940 Medico-Cirujano, Universidad Nacional de Córdoba, R. Argentina.

1943 Doctor en Medicina. Universidad Nacional de Córdoba, R. Argentina.
Tesis: "Fosfomonoesterasa alcalina de la glandula mamaria".
Director de tesis: Dr. Alberto Marsal

Estudios de perfeccionamiento:

1945-1946 Universidad de Cambridge (Inglaterra), Sir W. Dunn. School of Biochemistry, con el Dr. M. Dixon.

Actividad de docencia e Investigación:

1940-1943 Jefe de Trabajos Practicos y Ayudante Tecnico de la Facultad de Ciencias Médicas (FCM) de la Universidad Nacional de Córdoba (UNC), R. Argentina.

1943 Profesor Adscripto de Bioquímica de la FCM de la UNC, R. Argentina.

1944-1946 Asociado de Investigación en la Escuela de Bioquímica. Universidad de Cambridge (Inglaterra) como Becario de la Asocia-cion Argentina para el avance de la Ciencia y del Consejo Britanico de Londres.

1946-1947 Asociado de Investigación del Instituto de Fisiologia. Universidad de Buenos Aires, R. Argentina.

1947-1952 Miembro del Instituto de Investigaciones Bioquímicas "Fundacion Campomar", Buenos Aires, R. Argentina.

1953 Asociado de Investigación del Departamento de Química de la Universidad de

Ohio (Estados Unidos de Norteamérica)
como Becario de la John Simon
Guggenheim Memorial Foundation.

- 1954-1955 Instructor de Investigación Bioquímica
de la Escuela de Medicina de la Univer-
sidad de Oklahoma Estados Unidos de
Norteamérica (EE.UU)
- 1956 Profesor Adscripto de Investigación Bio-
química de la Escuela de Medicina de la
Universidad de Oklahoma (EE.UU).
- 1957 Profesor Adjunto de Investigación Bio-
química de la Escuela de Medicina de la
Universidad de Oklahoma (EE.UU).
- 1959-1962 Profesor Titular de Investigación Bio-
química de la Escuela de Medicina de la
Universidad de Oklahoma (EE.UU).
- 1963 Profesor Titular contratado de Química
Biológica del Instituto de Ciencias Qui-
micas de la Universidad Nacional de Cor-
doba, R. Argentina.
- 1964 Director del Departamento de Química
Biológica del Instituto de Ciencias Qui-
micas de la Universidad Nacional de Cor-
doba, R. Argentina.
- 1964-1971 Director del Instituto de Ciencias Qui-
micas y Delegado Interventor de la Fa-
cultad de Ciencias Químicas de la Uni-
versidad Nacional de Córdoba, R. Argen-
tina.
- 1964-1984 Director del Departamento de Química
Biológica. Facultad de Ciencias Quími-
cas. Universidad Nacional de Córdoba.

Premios:

- 1967 "Premio Campomar" otorgado por el Conse-
jo Nacional de Investigaciones Científi-
cas y Técnicas, 4 de abril de 1968.
- 1974 "Premio Leon Cherny" otorgado por la
Fundación Lucio Cherny. 1973.
- 1980 "Diploma al Merito" otorgado por la
Fundación Konex.
- 1983 "J. Kayle" otorgado por la Asociación
Química Argentina.

- 1985 "Bunge Born" otorgado por la Fundacion Bunge Born.
- 1988 "Premio Consagración Nacional" otorgado por el Ministerio de Educación de la Nación. Secretaría de Cultura.

Distinciones:

- 1963-1968 Integrante de la Comisión Regional del Centro del Consejo Nacional de Investigaciones Científicas y Técnicas.
- 1969 Miembro Titular de la Junta de Calificaciones y Promoción de la Carrera del Investigador Científico del Consejo Nacional de Investigaciones Científicas y Técnicas.
- 1969 Académico correspondiente de la Academia Nacional de Ciencias Exactas, Físicas y Naturales de Buenos Aires.
- 1970 Consultor de la Comisión Regional del Centro del Consejo Nacional de Investigaciones Científicas y Técnicas.
- 1972 Miembro Vitalicio de la "Fundacion Bariloche"
- 1972 Miembro Académico, Academia Nacional de Ciencias de Córdoba.
- 1974 Presidente de PAABS, The Pan-American Association of Biochemical Societies.
- 1976 Académico, Academia Nacional de Medicina de Córdoba.
- 1993 Reconocimiento a la labor Institucional y de Investigación de la Universidad Nacional de Córdoba.

BIBLIOGRAFIA

SOBRE LA FOSFATASA ALCALINA DE LA GLANDULA MAMARIA

Extracción y purificación de la fosfatasa de la glándula mamaria. R. Caputto y A. Marsal. (1941) Revista Soc. Argentina de Biología, XII, 2.

Fosfomonoesterasa alcalina de la glándula mamaria. Propiedades químicas y relación con la fosfatasa del suero sanguíneo. TESIS DOCTORAL. R. Caputto. Universidad Nacional de Córdoba, Argentina. 1944.

Fosfatasas alcalinas animales. Propiedades del preparado purificado de la fosfatasa de la glándula mamaria. R. Caputto y A. Marsal. (1944). Revista de la Facultad de Ciencias Médicas, Córdoba, Argentina, II.

Fosfatasas alcalinas animales. Espectro de absorcion ultravioleta de la fosfatasa de la glandula mamaria. R. Caputto y A. Marsal (1944). Revista de la Facultad de Ciencias Médicas, Córdoba, Argentina, II.

OTROS ESTUDIOS ENZIMATICOS

Crystallization and identification of the triose and triose -phosphate dehydrogenase of muscle. R. Caputto and M. Dixon (1945), Nature 156, 630.

Uridinephosphorilase. C. Cardini, A. Paladini, L.F. Leloir and R. Caputto, (1950), Acta Physiologica Latinoamericana, I, 148.

The enzymatic synthesis of adenylic acid. Adenosinkinase. R. Caputto (1951), J. Biol. Chem., 189, 801.

On the biological transformation creatin-creatinine. R. Caputto. (1954). Arch. of Biochem. and Biophys., 52, 280.

Determination of isomerases. R. Caputto. (1966). Chapter for Hoppe-Seyler, Thierfelder Handbuch der Physiologisch and Phatogogisch-Chemischen Analyse, Springer-Verlag. Berlin, Tomo VI, Parte B, pag. 253.

AI SLAMI ENTO E IDENTIFICACION DE GLUCOSA 1,6 DIFOSFATO COMO COENZIMA DE FOSFOGLUCOMUTASA

A coenzyme for phosphoglucomutase. R. Caputto, L.F. Leloir, R.E. Trucco and A. Paladini. (1948) Arch. Biochem., 18, 201.

The coenzyme of phosphoglucomutase. L.F. Leloir, R.E. Trucco, C. Cardini, A. Paladini and R. Caputto. (1948). Arch. of Biochem., 19, 339.

The isolation of the coenzyme of phosphoglucomutase. C. Cardini, A. Paladini, R.E. Trucco, R. Caputto and L.F. Leloir. (1949). Arch. of Biochem., 22, 87.

La sintesis del glucosa difosfato. O.M. Repetto, R. Caputto, C. Cardini, A. Paladini and L.F. Leloir. (1949). Ciencia e Investigación, Buenos Aires, 4, 175.

La sinteis del glucosa 1,6 difosfato. A. Paladini, L.F. Leloir, O.M. Repetto, C. Cardini y R. Caputto. (1949). Anales de la Asoc. Quimica Argentina, 37, 196.

The enzymatic synthesis of glucose 1,6 diphosphate. A. Paladini, R.E. Trucco, C. Cardini, R. Caputto and L.F. Leloir. (1949). Arch. of Biochem., 23, 55.

The formation of glucose diphosphate by Escherichia Coli. L.F. Leloir, R.E. Trucco, C. Cardini, A. Paladini and R. Caputto. (1949) Arch. of Biochem., 84, 65.

Una nueva reaccion de transfosforilacion enzimatica. R.E. Trucco, R. Caputto, L.F. Leloir, C. Cardini and A. Paladini. (1949). Ciencia e Investigación, Buenos Aires, 9, 390.

ESTUDIOS VARIOS

Determinacion de la volemia en niños normales y convalecientes de tifoidea. C. Piantoni, A. Valdez, J.C. Sosa Gallardo y R. Caputto. (1945). Arch. de Pediatria (Montevideo).

Influencia de la diabetes y de la administracion de tiouracilo sobre el contenido en SH de los tejidos. B.A. Houssay, C. Martinez y R. Caputto. (1947). Rev. Soc. Argentina de Biologia (1947), XXIII.

Metabolic properties of quinidine: effects of quinidine sulfate on anaerobic carbohydrate metabolims of the rat diaphragm. H.A. Ells, R. Caputto and R.H. Furman (1956). Proc. Soc. Exper. Biol. and Med., 93, 189.

Incorporation of p32 om the muscle by normal and thyrotoxic resting rats. P.C. Johnson, A.F. Posey, D.R. Patrick and R. Caputto. (1958). Amer. J. of Physiology, 19, 2, 279.

A new adenosine dinucleotide isolated from muscle extracts. W.H. Mosley and R. Caputto. (1958). A. Amer. Chem. Soc., 80, 4747.

Adenosine Myonic acid dinucleotide. D.P. Caputto, W.H. Mosley, J.L. Poyer and R. Caputto. (1961). J. Biol. Chem., 236, 10, 2727.

Studies of brain weight and RNA content after short periods of exposure to environmental complexity. P.A. Ferchmin, V.A. Eterovic and R. Caputto. (1970). Brain Research, 20, 139.

SOBRE EL METABOLISMO DE LACTOSA Y GALACTOSA:

Aislamiento e Identificacion de Uridina Difosfoglucosa como Co-galactowaldenase; Aislamiento e Identificacion de Neuramin-lactosa.

Lactose and lactose fermentation in Saccharomyces Fragilis. R. Caputto, L.F. Leloir and R.E. Trucco. (1949). Enzymologia, XII, 350.

Galactokinase. R.E. Trucco, R. Caputto, L.F. Leloir and L. Mittelman. (1949). Arch. of Biochem., 18, 137.

The enzymatic transformation of galactose into glucose derivatives. R. Caputto, L.F. Leloir, R.E. Trucco, A. Paladini and C. Cardini. (1949). J. Biol. Chem., 179, 497.

Uridine diphosphate glucose, the coenzyme of the galactose-glucose phosphate, isomerization. C. Cardini, A. Paladini, R. Caputto and L.F. Leloir. (1950). Nature, 165, 191.

Isolation of the coenzyme of the galactose phosphate-glucose phosphate transformation. R. Caputto, L.F. Leloir, C. Cardini and A. Paladini. (1950). J. of Biol. Chem., 184, 333.

Recientes adquisiciones en el conocimiento del metabolismo intermedio de la glucosa y galactosa. A. Paladini, R. Caputto, C. Cardini y L.F. Leloir. (1950). Revista Asoc. Química Argentina. XV. 28.

A new galactose containing compound from mammary gland of rats. R. Caputto and R.E. Trucco. (1952). Nature, 169, 1061.

Neuramin-lactosa, un nuevo compuesto de la glándula mamaria. R. Caputto y R.E. Trucco. Ciencia e Investigación, Buenos Aires, 91953, 9, 567.

Neuramin-lactose, a new compound isolated from mammary gland of rats. R.E. Trucco and R. Caputto. (1954). J. Biol. Chem., 206, 901.

Neuramin-lactose-sulphate, a new compound isolated from the mammary gland of rats. R. Carubelli, R.E. Trucco and R. Caputto. (1961). J. Biol. Chem., 236, 2381.

Neuraminidase from mammalian tissues. R. Carubelli, R.E. Trucco and R. Caputto. (1962). Biochim. Biophys. Acta, 60, 196.

Incorporation of ¹⁴C-glucose into lactose and neuramin-lactose of rat mammary glands. R. Carubelli, R.E. Trucco and R. Caputto. (1964). Biochim. Biophys. Acta, 83, 224.
Isolation and identification of a lactose phosphate ester from cow colostrum. F.A. Cumar, P.A. Ferhmin and R. Caputto. (1965). Biochem. Biophys. Res. Commun., 20, 60.

Studies on the structure of neuramin-lactose sulfate. L.C. Ryan, R. Carubelli, R. Caputto and R.E. Trucco. (1965). Biochim. Biophys. Acta, 101, 252.

Isolation and identification of a lactose sulphate ester from rat mammary gland. H.S. Barra and R. Caputto. (1965). Biochim. Biophys. Acta, 101, 367.

Isomerases. R. Caputto. (1966). Hoppe-Seyler/Thierfelder, Handbuch der physiologisch und pathologiesch-chemischen Analyse, 10 Aufl., Bd. VI/C.

Glycotransferases (Transglycosylases). R. Caputto, R.E. Trucco and P.B. McCay. (1966). Hoppe-Seyler/Thierfelder, Handbuch der physiologisch and pathologisch-chemischen Analyse, 10 Aulf., Bd. VI/B, (1966).

SOBRE LOS COMPUESTOS DE ALTO PESO MOLECULAR DE JUGO GASTRICO

Biochemical study of the large molecular constituents of gastric juice. V. Richmond, R. Caputto and O. Wolf. (1965). Gastroenterology, 29, 1017.

The fractionation of important constituents of gastric juice other than hydrochloric acid. (1956). S. E4Wolf, R. Caputto, V. Richmond and L. Russel. Annals of Internal. Medicine, 45, 825.

The biological activities of the large molecular components of human gastric content. S. Wolf, W.O. Smith, R. Caputto, R.E. Trucco and P.C. Johnson. (1957).. Trans. of the Amer. Clinical and Climatological Assoc., 69, 147

Fractionation of the non-dializable, soluble components of gastric contents by chromatography on amberlite IRC-50. (1957). V. Richmond, R. Caputto and S. Wolf. Arch. of Biochem. and Biophys., 55, 155.

Chromatographic isolation of gastricsin, the proteolytic enzyme from gastric juice with pH optimun 3.2. (1958). V. Ricchmond, J. Tang, S. Wolf, R.E. Trucco and R. Caputto. Biochem. Biophys. Acta, 29, 453.

Fractionation of the biologically active large molecular components of human gastric content. R. Caputto, W.O. Smith, J. Tang, R.E. Trucco, W. Joel, R.C. Johson and S. Wolf. (1958). Procc. of the World Congress of Gastroenterology, Washington D.C., U.S.A., 124.

The nature of the inhibitory effect of normal human gastric juice on Heidenhain pouch dogs. S. Wolf, W.O. Smith, R. Caputto and W. Joel. (1958). Gastroenterology, 34, 2, 181.

Isolation and crystallization of gastricsin from human juice. J. Tang, S. Wolf, R. Caputto and R.E. Trucco. (1959). J. Biol. Chem., 234, 1174.

SOBRE LA FUNCION BIOQUÍMICA DE LA VITAMINA "E"

Creatine phosphate utilization by muscle extracts of rabbits on vitamin E defecientt diets. M. Carpenter, P.B. McCay and R. Caputto. (1958). Proc. Soc. Exper. and Med., 97, 205.

Requirements of Mn⁺ and Co⁺ for the synthesis of ascorbic acid by liver extract of animals deprived of tocopherol. R. Caputto, P>B> MacCay and M.P. Carpenter. (1958). J. of Biol.. Chem., 233, 1025.

In vitro activation by tocopherol of the synthesis of ascorbic acid by liver extracts of tocopherol-deficients rats. P.B. Carpenter, A.E. Kitabchi and R. Caputto. (1959). Arch. Biochem and Biophys., 82, 472.

The activation by tocopherol and other agents of ascorbic acid synthesis by liver homogenates from vitamin E deficient rats. M.P. Carpenter, A.E. Kitabchi, P.B. MacCay and R. Caputto. (1959). J. Biol. Chem., 234, 2814.

The site of inhibition of ascorbic acid synthesis by liver preparations from rats deprived of vitamin E. A.E. Kitabchi. P.B. MacCay, M.P. Carpenter, R.H. Feinberg, R.E. Trucco and R. Caputto. (1959). Biochem. and Biophys. Res. Commun., 1, 216.

The activation of gulonolactone oxidase by hydrogen peroxide and by O₂ at high pressures. P.B. MacCay, A.E. Kitabchi, R.H. Freiberg, M.P. Carpenter, R.E. Trucco and R. Caputto. (1960). Biochem. and Biophys. Res. Commun., 3, 441.

Hydrogen peroxide stimulations of the formation of ascorbic acid from L-gulonolactone by rat liver preparations. R.H. Feinberg and R. Caputto. (1960). *Biochem. and Biophys. Res. Commun.*, 3, 40.

Formation of malonaldehyde in vitamin E. deficiency and its relation to the inhibitions of gulonolactone oxidase. A.E. Kitabchi, P.B. McCay, M.P. Carpenter, R.E. Trucco and R. Caputto. (1960). J. Biol. Chem., 235, 1591.

Incorporation of radioactive phosphate into organic phosphate of tocopherol deficient and control rabbit muscle. Y.F. Masters, P.C. Johnson, W.H. Mosley, P.B. McCay and R. Caputto. (1960). Amer. J. Phys., 199, 295.

Inhibition of succinoxidase by L-gulonolactose oxidase in liver preparation from tocopherol deficient rats. P.B. McCay, A.E. Kitabchi, R. Caputto and R.E. Trucco. (1961). Biochem. and Biophys. Res. Commun., 4, 469.

The interrelationship between gulonolactone oxidase and the process of lipid peroxidation. R. Caputto, R.E. Trucco and A.E. Kitabchi. Annals N.Y. Acad. Sci., (1961) 92, 79.

The inhibition of ascorbic acid synthesis by the process of lipid peroxidation in vitamin E deficiency. R. Caputto, P.B. McCay and M.P. Carpenter. (1961). Amer. J. Clin. Nutrition, 9, 61.

On the possible presence of lipid peroxides in the tissues of tocopherol deprived animals. Shukri El-Khativ, U.A. Chenau, M.P. Carpenter, R.E. Trucco and R. Caputto. (1964). Nature, 201, 188.

TRABAJOS CIENTIFICOS ORIGINADOS EN EL DEPARTAMENTO DE QUIMICA BIOLOGICA DE LA FACULTAD DE CIENCIAS QUIMICAS DE LA UNIVERSIDAD NACIONAL DE CORDOBA A PARTIR DEL AÑO 1963.

"Isolation and identification of a lactose phosphate ester from cow colostrum" F.A. Cumar, P.A. Ferchmin and R. Caputto. (1965). Biochem. and Biophys. Res. Commun., 20, 60.

Isolation and identification of a lactose sulphate ester from rat mammary gland". H.S. Barra and R. Caputto. Biochim. et Biophys. Acta. (1965)., 101, 367.

Enzymic binding of sialyl groups to ganglioside derivatives by preparation from the brain of young rat". A. Arce, H.J.F. Maccioni and R. Caputto. (1966). Arch, of Biochem. and Biophys., 116, 52.

"Síntesis de derivados de lactosa y gangliósidos". R. Caputto. (1966). Acta Physiologica Latinoamericana: Fisiología, Farmacología, Bioquímica y Ciencias Afines, Vol. XVI. (2), pág. 106.

"Carbohydrate metabolism" R. Caputto in collaboration with H.S. Barra and F.A. Cumar. (1967). Annual Review of Biochemistry, 36, 211.

"Problemas del desarrollo científico del Interior". Ranwel Caputto. (1967). Ciencia e Investigación, Tomo 23, Nro. 9, pág. 412.

"Gangliósidos del tejido muscular". F.E. Lassaga, I. Albarracín de Lassaga y Ranwel Caputto. (1967). Anales de la Asociación Química Argentina, 55, 309.

"Synthesis of gangliosides during development and its relation of the quantitative changes of subcellular particles of rat brain". Alicia H.R. Maccioni and R. Caputto. (1968). J. of Neurochem., 15, 1257.

"Sulfation of glycosphingolipids and related carbohydrate by brain preparations from young rats". F.A. Cumar, H.S. Barra, H.J.F. Maccioni and R. Caputto. (1968). J. Biol. Chem., 243, 3807.

"The synthesis of neuramin lactose by preparation of rat mammary gland and its relation to the synthesis of lactose". H.S. Barra, F.A. Cuemar and R. Caputto. (1969). J. of Biol. Chem., 244, 6233.

"Studies of brain weight and RNA content after short periods of exposure to environmental complexity". F.A. Ferchmin, V.A. Eterovic and R. Caputto. (1970). Brain Research, 20, 49.

"The biosynthesis of gangliosides: the incorporation of galactose, N-acetyl-galactosamine and N-acetylneuraminic acid into endogenous acceptors of subcellular particles from rat brain in vitro". A. Arce, H.J.F. Maccioni and R. Caputto. (1971). Biochem. J., 121, 483.

"The labelling of the gangliosidic fraction from brains of rats exposed to different levels of stimulation after injection of 6-3H-Glucosamine". Alicia H.R. Maccioni, M. S. Giménez and R. Caputto. (1971). J. of Neurochem., 18, 2363.

The biosynthesis of gangliosides: labelling of rat brain gangliosides in vivo". H.J.F. Maccioni, A. Arce and R. Caputto. (1971). The Biochem J., 125, 1131.

"Los gangliósidos de S.N.C." Ranwel Caputto y Alicia H.R. Maccioni. Anales de la Sociedad Científica Argentina. (1971) Número especial.

"A natural inhibitor of sialyltransferase and its possible influence on this enzyme activity during brain development". R.O. Duffard and R. Caputto. (1972). Biochemistry. 11, Nro. 8.

"A method of determining the sequence of incorporation of monosaccharides in the synthesis of the branched oligosaccharide chain of a structural compound. The biosynthesis of Tay Sachs Ganglioside". H.J.F. Maccioni, A. Arce and R. Caputto. (1972). FEBS Lett., 23, (2) 136.

"Capacities of binding amino acids by tRNAs from rat brain and their changes during development". H.S. Barra, Lilia E. Uñates, Marta Sayavedra and R. Caputto. (1972). J. of Neurochem., 19, 2289.
